## WORK EXPERIENCE

---

### Skills USA Kansas PS Vice president

2023-2024

Dynamic and results-driven student leader currently serving as the SkillsUSA Kansas Postsecondary Vice President. Proven track record in state-level advocacy, public speaking, and organizational strategy. Gold medalist in the Internet of Things (IoT) competition with a commitment to advancing technical education and fostering professional excellence within the Kansas career and technical education community.

### Head Lifeguard

City of Junction City | Junction City, KS

2024 - 2026

Certified Lifeguard by the American Red Cross with of experience supervising swimming pool areas and ensuring patrons safety. Additionally responsible for the oversight and training of other lifeguards, performing pool maintenance duties, and leading engaging swim instruction for various skill levels. Highly skilled swimmer and excellent communicator, experienced in maintaining pools. Certified in CPR and first aid

### Beak Squad

IT Help Desk

JCHS | Junction City, KS

2023-2025

Beak Squad is a student-run IT help desk. In this role, I assist students and staff with computer and smart board issues, troubleshoot other technical problems, and manage social media pages. Additionally, we undertake projects like the development of an AR sandbox.

---

### **Sports Team Media Specialist**

JCHS | Junction City, KS

2024-2025

In my role as a sports team media specialist, I was responsible for producing all promotional media. This included creating social media content for pre-game and game days, editing hype videos to boost fan engagement, and traveling with the teams to capture photos and videos on location.

### **Into The Woods**

Student Technical Director

JCHS | Junction City, KS

2024-2025

In my role as Student Technical Director, I managed all technical elements of the production. My duties involved rigging lights, engineering the sound design, operating the soundboard during performances, and running the stage's counterweight system to manage scenery and effects.

### **J Store**

Developer / product designer

JCHS | Junction City, KS

2024-2025

As the Web & digital project management intern at J Store, I played a pivotal role in developing and implementing a robust e-commerce platform and inventory management system. I designed and built a user-friendly website, optimized inventory processes, and launched a successful line of custom merchandise. My contributions directly contributed to increased sales and improved operational efficiency.

### **Spin City**

City of Junction City | Junction City, KS

2024 -2025

At Spin City, I provide excellent customer service by assisting patrons with skate rentals and answering their questions. I also contribute to the overall fun atmosphere by helping to organize games and manage the DJ equipment.
